Buy shares at one price and sell at a higher price, and earn income in the form of dividends from your shareholding. A share price goes up because people value the shares in that company and offer increasingly higher prices to buy them. This may sound simple, but there is no guarantee shares will rise in price while you own them.

What are shares? A share is simply part ownership of a business. A company can raise money to finance its business by "going public." Going public means being listed on a stock exchange and issuing shares to investors. By paying for the shares, each investor buys part ownership of the company's business and becomes a shareholder in the company.
