PLP-R (KS1) Classroom Management: Managing Groups

### **Booklet - PLP-R Classroom Management Managing Groups**

Student achievement in instructional groups is related to the teacher's ability to solve classroom management problems associated with the use of small groups. An exception to student achievement gains occurs in long-term ability groups. Positive achievement effects are found only for high ability students, and these results occur only in some studies.

### **Strategies for Effective Time Management in the Classroom**

Small groups enable students to work with their classmates. ! Small groups can discuss possible approaches to a problem. ! Small groups help students benefit from one another's thinking. Students cannot be expected to automatically know how to work productively in small groups. ! Skills for working in groups must be taught.

### **2c: Managing Classroom Procedures**

makes one individual the loser. If the resolution involves all members of the group, regarding the conflict as a group problem, rather than as one person's problem, the group cohesiveness may even be increased.

Group conflicts should be dealt with because they can become destructive and divide the group (Hadad & Reed, p. 268).

### **Group Work: Dealing with Conflicts - Ryerson University**

Students working in small groups have a tendency to learn more of what is taught and retain it longer than when the same material is presented in other instructional formats (Barkley, Cross & Major, 2005; Davis, 1993).
