FIGURE 1. Correlation Table for Academic Achievement, Theory of Mind, and Executive Function across four time points. These variables were selected because their interrelations are of significant interest in preschool research.

Frontiers | Montessori Preschool Elevates and Equalizes

Montessori preschool education has been shown to have positive effects on children's academic achievement, social skills, and executive function. This study examines the impact of Montessori preschool on these outcomes. The results show that children in Montessori preschools performed significantly better on measures of academic achievement, social skills, and executive function compared to children in traditional preschools. These findings suggest that Montessori preschool education is an effective approach to early childhood education.
