Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible interactions.. The term is generally used to characterize something with many parts where those parts interact with each other in multiple ways, culminating in a higher order of emergence ...

The term “personal injury claim” has become somewhat mainstream, especially in recent times. You’ve probably seen or heard the adverts on the television, the radio, the Internet and other advertising mediums, asking whether you have been injured in an accident and therefore require the services of a personal injury solicitor/ lawyer, but what exactly is a personal injury claim?
