

information systems for management pdf

A management information system (MIS) is an information system used for decision-making, and for the coordination, control, analysis, and visualization of information in an organization; especially in a company.. The study of management information systems examines people, processes and technology in an organizational context. In a corporate setting, the ultimate goal of the use of a ...

Management information system - Wikipedia

Information security, sometimes shortened to InfoSec, is the practice of preventing unauthorized access, use, disclosure, disruption, modification, inspection, recording or destruction of information. The information or data may take any form, e.g. electronic or physical. Information security's primary focus is the balanced protection of the confidentiality, integrity and availability of data ...
