Development of a computer program for advance care planning. With these shortfalls in mind, we created an interactive computer program for advance care planning, called "Making Your Wishes Known: Planning Your Medical Future"™. This program has been a collaborative effort involving experts in medicine, nursing, bioethics, geriatrics, decision analysis, law, graphic art, instructional design and education.

Development of an interactive computer program for advance

Interactive Computer Graphics Degree Overview. The Interactive Computer Graphics (ICG) program offers a challenging, idea-driven environment that teaches students skills in creative design technologies. These technologies are used in a variety of redefined creative ways, including 2D/3D Animation, Virtual Reality, and User Interface design.
