NSF International. Founded in 1944, our mission is to protect and improve global human health.

Manufacturers, regulators and consumers look to us to facilitate the development of public health standards and certifications that help protect food, water, consumer products and the environment.

NSF International

IMS Health and Quintiles are now IQVIA. We are committed to providing solutions that enable healthcare companies to innovate with confidence, maximize opportunities and, ultimately, drive healthcare forward. We do this via breakthroughs in insights, technology, analytics and human intelligence that bring the advances in data science together with the possibilities of human science.

A New Path to Your Success Via Human Data Science - IQVIA

Located in the School of Public Health and Health Professions since 1999, CIRRIE facilitates the sharing of information and expertise between the U.S. and world-wide partners to improve the conditions of people with disabilities.

The Programme for International Student Assessment (PISA) is a worldwide study by the Organisation for Economic Co-operation and Development (OECD) in member and non-member nations intended to evaluate educational systems by measuring 15-year-old school pupils' scholastic performance on mathematics, science, and reading. It was first performed in 2000 and then repeated every three years.

The International Space Station (ISS) is a space station, or a habitable artificial satellite, in low Earth orbit. Its first component launched into orbit in 1998, with the first long-term residents arriving in November 2000. It has been inhabited continuously since that date. The last pressurised module was fitted in 2011, and an experimental inflatable space habitat was added in 2016.

International Space Station - Wikipedia

Studying is more than just a degree. There are the unexpected people who will become your friends, the community you will discover on campus and the experiences that will shape your future.
