The Journal of Mathematical Analysis and Applications presents papers that treat mathematical analysis and its numerous applications. The journal emphasizes articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, and engineering, particularly those that stress analytical aspects and novel problems and their solutions.

Life history theory is an analytical framework designed to study the diversity of life history strategies used by different organisms throughout the world, as well as the causes and results of the variation in their life cycles. It is a theory of biological evolution that seeks to explain aspects of organisms' anatomy and behavior by reference to the way that their life historiesâ€”including ...

Abstract: Time predictability is difficult to achieve in the complex, layered execution environments that are common in modern embedded devices such as smartphones. We explore adopting the Android programming model for a range of embedded applications that extends beyond mobile devices, under the ...

L'histoire des femmes est une branche de l'histoire consacrée à l'étude des femmes en tant que groupe social, apparue dans les années 1970 et étroitement liée aux luttes féministes [1]. De nombreux auteurs constatent en effet l'absence d'« historicité » des études sur les femmes [2], [3]. Ce qu'ils analysent comme un processus de déshistoricisation est un phénomène qui tente de ...
