Dr. Sadi Evren SEKER Â» Blog

Summary. Machine Learning in Action is unique book that blends the foundational theories of machine learning with the practical realities of building tools for everyday data analysis. You'll use the flexible Python programming language to build programs that implement algorithms for data classification, forecasting, recommendations, and higher-level features like summarization and simplification.

This tutorial explains tree based modeling which includes decision trees, random forest, bagging, boosting, ensemble methods in R and python

A Complete Tutorial on Tree Based Modeling from Scratch

I am a perpetual, quick learner and keen to explore the realm of Data analytics and science. I am deeply excited about the times we live in and the rate at which data is being generated and being transformed as an asset.

The most comprehensive Data Science learning plan for 2017

We are getting ready to launch a new quantitative investment contest. We're sharing a draft of the new rules so that you can start developing a strategy, and so we can get your feedback on the rules before we finalize them. The new contest will give you better and faster feedback on your algorithms. The rules will be better aligned with how we evaluate algorithms for allocations.
